

The SU 0110 TWP *Light* satellite is to be connected with tap water pressure and must have air from an external compressor. The satellite can be used for rinsing and to lay out foam.

The SU 0110 TWP *Light* comes as a plug-and-clean kit with a 12,5 meter outlet hose and ball valve.

SU 0110 TWP *Light* is designed with an easy maintainable manual change-over block. The change-over function is operated by a stainless steel handle on the side of the unit.

The satellite is available as rinse/foam only.

Technical data

Water:	Unit	SU 0110 TWP <i>Light</i>
Min./max. inlet pressure	Bar	2/10
Max. water consumption	L/min.	15
Pipe dimension inlet	Inch	½"
Air:		
Pipe dimensions inlet	Inch	¼"
Air supply	Bar	2/10
Air consumption	L/min.	150-200
Dimensions (WxHxD)	Mm	220x120x80
Weight	Kg	3,5

Standard accessories:

- 25/30 Rinsing Nozzle – "High Impact"
 - 50/200 Foam Nozzle
 - 12,5 meter ¾" hose
 - Brass ball valve
 - Nozzle holder
- All nozzles are of course in stainless steel*
